I pay my respects to the Sun, who is as radiant as the Japanese Rose flower, possesses great brilliance, is the destroyer of darkness, eliminates all sins, and is the son of Sage Kashyap. I salute the Moon, who is as radiant as curd, conch, and frost, emerged from the Milky Ocean, is the crown jewel of Lord Shiva, and symbolizes the nectar of life. I bow to Mars, who was born from Mother Earth, whose radiance is comparable to lightning, who is in his youth and holds power in his hands. I pay respects to Mercury, the son of the Moon, who is as deeply green as the bud of the Priyangu creeper, who possesses incomparable beauty and is endowed with tranquil qualities. I salute Jupiter, the teacher of gods and sages, who glows like gold, is endowed with wisdom, and is the lord of all the worlds. I salute Venus, who is as white as the snow, jasmine, and the stem of the lotus, who is the supreme teacher of the demons, the preacher of all scriptures, and the son of Sage Bhrigu. I bow to Saturn, who glows with the blue-black sheen of kohl, who is the son of the Sun, the elder brother of Yama, and was born from Chhaya and Martand (Sun). I pay my respects to Rahu, who is half-bodied, greatly powerful, known to swallow the Sun and the Moon, and who was born from the womb of Simhika. I bow to Ketu, whose radiance is like the flower of a Palasa plant, who is of a Rudra (ferocious) nature and the son of Rudra, who is fearsome, and is the head of the stars and planets. One who reads this prayer (that emerged from the mouth of Lord Veda Vyasa) during the day or at night with single-minded concentration, finds all his obstacles removed. The nightmares of men, women, and kings are destroyed. Those who read this gain exceptional wealth and health and see an increase in their strength.

Planetary Aspects (Drishti)

In Vedic astrology, planetary aspects (drishti) are pivotal in analyzing a birth chart. Vedic aspects provide insights into the inherent influences planets exert on each other, Jaimini aspects focus on the sign-based interactions, and Tajika aspects, blend Persian techniques to reveal temporal influences. Together, they offer a comprehensive understanding of an individual's life patterns and potentialities.

Predictions from Tri-Ayudha Chakra

As per Nakshatra-reckoning from Sun's placement nakshatra to that of Moon's, as per Ratha Chakra, it falls on the yoke; it's result is that - if counteracting combinations are not present in your chart - you may face many impediments and may not easily be able to obtain the fruits of your endeavors very easily.

As per Nakshatra-reckoning from Sun's placement nakshatra to that of Moon's, as per Ghurna Chakra, it falls in the sixth portion; it's result is that - if counteracting combinations are not present in your chart - you may meet with stiff opposition from some quarter during sometime in your life; if so happens, then avoiding headlong confrontation will be advisable for you.

As per Nakshatra-reckoning from Sun's placement nakshatra to that of Moon's, as per Chapa Chakra, it falls on the Bow Arc; it's result is that - if counteracting combinations are not present in your chart - you will be an embodiment of courage and strength; you may leave an indelible mark by virtue of doing some valorous deeds.

Vimshottari Dasha is a system used in Vedic astrology for determining the planetary periods, also known as dashas, in a person's life. The word 'Vimshottari' means '120' in Sanskrit, which represents the total number of years in a complete cycle of all the planetary periods.

The system is based on the position of the Moon at the time of a person's birth, and it assigns certain periods of time to each of the nine planets of Vedic astrology. Each planet has a specific number of years assigned to it, ranging from 6 to 20 years, depending on its position in the system.

During each planetary period, the planet in question is said to have a significant influence on a person's life. This influence can be positive or negative, depending on the individual's birth chart and the specific planetary alignments at the time.

Vimshottari Dasha is considered an important tool in Vedic astrology, as it provides a detailed and accurate system for predicting major events and changes in a person's life. It is widely used by astrologers to make predictions about career, relationships, health, and other aspects of a person's life, and can be a valuable tool for those seeking guidance or insight into their future.

Observations from K.C.D Jeeva-Rashi and Amsha-Rashi

Your KCD Jeeva-Rashi : Gemini

Your KCD Amsha-Rashi : Taurus

As Mars aspects your Jeeva Rashi (= Life), you may have a very high opinion about yourself, and expect that the people in your circle should treat you with due respect. You are likely to be quick to take offence, and wish the offender be adequately punished. If a natural benefic planet is with Mars or aspects it, then the condition will be improved for the better. But if another natural malefic planet is with Mars or aspects it, then the situation may worsen further.

Checking Prospect of Marriage

In your chart, in the Bhinna Astakavarga of Venus, there are 5 (or more number of) benefic dots in the 7th from Venus. This is a highly fortunate combination in respect of the natural significations of Venus - marriage and happiness in married life. You will be highly fortunate in respect of your spouse. She/ He will be very attractive looking, hail from a decent family, will be very cultured, well mannered, and refined in taste. Your married life will be very joyful and happy, as you will consider each other to be dearer than your own lives.

In your chart, in the Bhinna Astakavarga of Saturn, there are 3 (or less number of) benefic dots in the 7th from Venus. This is not at all a fortunate combination in respect of the natural significations of Venus - marriage and happiness in married life. If some benign modifying influences are not present in your chart, then you may not be very fortunate in respect of your spouse. She/ He would neither be very attractive looking, nor hail from a decent family; besides, she/ he might be quite lacking in culture, manners and refinement in taste. Although she/ he might be industrious, yet your married life may not be very happy, as she/ he might have an argumentative and obstinate nature, coupled with absolutely unrealistic vainglorious disposition.

In your chart, in the Bhinna Ashtakavarga of Venus, there are 6 (or more) dots in the 7th from Venus. This is a highly favorable combination. Your spouse will be very attractive-looking/ handsome; besides, she/ he will be cultured, well mannered, and refined in taste. Your married life will surely be very joyful and happy - as your spouse will consider you to be dearer than her/ his life.

You are a male person. In your Navamsha chart, Mercury is situated in the 7th Amsa from the placement of the Atma-karaka planet. This is a highly favorable combination. If some strong counteracting influences are not present in your chart, then you will be very fortunate in respect of your spouse; she will be beautiful, very attractive-looking, and possess pleasing manners; besides, she is very much likely to be well-versed in some branch of fine arts.

In your chart, the 7th-lord is situated together with the natural benefic planet Jupiter, while the latter is not the lord of any trika-house (6th or 8th or 12th). This is a highly favorable combination. If some strong counteracting influences are not present in your chart, then you will be very fortunate in respect of your spouse; your spouse will be very faithful and loyal to you, and you will remain very closely attached to her/ him in all affairs in general.

In your chart, as reckoned from Venus, one of the three significant signs (the 4th, the 8th and the 12th) is occupied by one or more natural malefic planet(s), while no natural benefic planet is situated in that particular sign. Predictions from Jaimini Chara Dasha

Jaimini Chara Dasha, as explained by Iranagati Rangacharya, is an esteemed progression system in Vedic astrology that provides a framework for predicting significant life events. It emphasizes the movable karakas and is dependent on the placement of signs rather than planetary positions, making it unique. Rangacharya's interpretation brings out nuanced subtleties, enhancing the system's effectiveness in delivering precise and contextually relevant predictions.

[N.B.: Since we are concentrating more on usual events and happenings of normal adult life in dasha prediction, the predictions for early (i.e., less than 16) or late (i.e., above 64) age-periods may not have much of relevance and there is no need to give importance to the predictions on the early or late periods.]
